## REPORTS PROSPECTS ARE FLATTERING

Judge J. Fleming Gordon Home For Few Days From Active Canvass

Judge J. Fleming Gordon is at home for a few days after quite a canvassing tour through the lower part of the Appellate district.

The Judge is looking and feeling good and is much encouraged over his prospects. It appears that he is strong in almost every county in the district and this sort of strength counts when there are in the race.

Judge Gordon will resume his campaign in the other counties in a few days and will make every day count from now until the primary.

He has in this corps 16 of the best of our young men. Nearly all these boys are college students and are a swell bunch and are always out for fun, and when on duty fully understand their duties. The Regiment is proud of its hospital corps and they are expecting a fine trip to Owensboro. They leave Thursday morning.

### LOOKS LIKE WINNER

Hon. Lee Gibson has returned from an extended trip to Caldwell, Crittenden and Livingston counties. Mr. Gibson is feeling like a winner in the race, and reports that everywhere he met with encouragement and kind treatment.

The whiskey interests are making the effort of their life to defeat McChesney in the August Primary, not a stone will be left unturned. Every vote that can be cast by them against McChesney. If the church people and those against Rum rule could see the seriousness of the situation as the rum powers does and would make the effort as they do, an overwhelming majority would be rolled up for McChesney. Don't be side tracked, by any device of the enemy.—adv.

## ENORMOUS INCREASE IN EXPORT TRADE

But Only \$400 Worth of Merchandise Went to Germany in May

Washington, July 10.—An increase of nearly \$298,000,000 in the export trade and a decrease of \$220,000,000 in imports is shown by the analysis of the United States foreign trade for the eleven months covering the European war, issued today by the Bureau of Foreign and Domestic Commerce. The trade balance in favor of the United States is estimated at \$1,060,889,505.

The analysis shows an enormous increase in exports of crude foodstuffs and food animals, the total exportations amounting to \$491,110,384, as against \$128,408,965 for the same period last year. Crude materials for use in manufacturing fell off nearly \$300,000,000 in exports, owing to the closing of European factories, which use American raw materials.

Exports to France more than doubled, to Italy they nearly tripled, and to Great Britain they increased by nearly \$300,000,000. The export trade to Germany fell from \$228,115,430 to \$228,861,587, and to Austria from \$21,380,137 to \$1,240,167. During May only \$400 worth of merchandise went to Germany.

## EARLINGTON, JR.'S DEFEAT CROFTON

The Earlinton, Jr.'s defeated Crofton Saturday at Crofton, making the score 16 and 8 in favor of Earlinton. Carpenter the pitcher, pitched a nice game until the seventh inning and the boys did not support him as good as usual. These boys have played 10 games and have won seven. A very small crowd attended which they took up \$3.00 at the game. The infield was O'Connor catcher Carpenter, pitcher Nance S. S. DeVlyder, 1st Wyatt 2nd Penwick 3rd. The outfield was Beard H. Robinson of DeVlyder.

Blessed is the man that walks not in the council of the ungodly or standeth in the way of sinners. Will you walk in the council of the rum power or live up with the whisky element? The rum power will council against McChesney, and the whisky element will vote against him. Where will you stand?—adv.

Hale, her daughter-in-law, who will also make her residence in "The Windy City."

## EARLINGTON [VS] EVANSVILLE

In the contest held on the Earlinton rifle range last week between Company G, of Earlinton and the Evansville crack shots, Earlinton came out winner by a nice score. There are some fine shots in the Earlinton company and they will doubtless be heard from at the big meet in Indianapolis.

Shall rum or the people rule? Every Democrat will be required to answer this question in the primary. A vote for McChesney says the people shall rule. A vote against him says Rum shall rule. Is it not better to be ruled by the people than by Rum? Then vote for McChesney.—adv.

## ROADS IN BETTER CONDITION

Split-Log Drag of Great Service in Keeping Thoroughfares in Shape—How It Is Built.

The use of the split-log drag is important in putting the roads in shape. There are over 2,000,000 miles of earth roads in the country, and the split-log drag is of great service in keeping them in economical repair. The drag is used in many states and in foreign countries. It is used with two, three, or four horses, and is easily constructed.

It is a mistake to construct a heavy drag. A dry red cedar log is the best material for a drag. Red elm and walnut when thoroughly dried are excellent, and box elder, soft maple, or even willow are preferable to oak, hickory or ash.

The log should be seven or eight feet long, and from ten to twelve inches in diameter, and carefully split down the middle. The heaviest and best slabs should be selected for the front. At a point on the front slab four inches from the end that is to be at the middle of the road locate the center of the hole to receive a cross stake, and 22 inches from the other end of the front slab locate the center for another cross stake. The hole for the middle stake will lie on a line connecting and halfway between the other two.

The back slab should then be placed in a position behind the other. From the end at the middle of the road measure 20 inches for the center of the cross stake, and six inches from the other end locate the center of the

The Split-Log Drag.

outside stake. Find the center of the middle hole as before. When these holes are brought opposite each other, one end of the back slab will lie 16 inches nearer the center of the roadway than the front one. The holes should be two inches in diameter. Care must be taken to hold the auger plumb in boring these holes in order that the stakes shall fit properly.

The two slabs should be held 30 inches apart by the stakes. The stakes should taper gradually toward the ends. There should be no shoulder at the point where the stakes enter the slab. The stakes should be fastened in place by wedges only. When the stakes have been placed in position and tightly wedged a brace two inches thick and four inches wide should be placed diagonally to them at the ditch end. The brace should be dropped on the front slab, so that its lower edge shall lie within an inch of the ground, while the other end should rest in the angle, between the slab and the end stake. A strip of iron about three and one-half feet long, three or four inches wide, and one-half of an inch thick may be used for the blade.

An ordinary trace chain is strong enough to draw the implement, provided the clevis is not fastened through a link. The chain should be wrapped around the rear stake, then passed over the front slab. Raising the chain at this end of the slab allows the earth to drift past the face of the drag. The other end of the chain should be passed through the hole in the end of the slab.

### Make-Up of Dairy Cow.

A wide, deep and full barrel or side is very important in a dairy cow. She must have plenty of room in which to manufacture milk from food and a large barrel indicates large digestive organs. A wide mouth and long, strong jaws also indicate that Bessy is, like Bill Nye, "fond of food." She ought also to have a large belly and moderately high flank.

### Beautiful Home Grounds.

Set out fruit trees where they will add to the beauty of the grounds.

### HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Carion, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

### THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live.

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Read What Others Say:

"Have used your Liniment very successfully in a case of rheumatism, and always have a bottle on hand in case of a cold or sore throat. I wish to say I think it one of the best of household remedies. I would not have used it only it was recommended to me by a friend of mine who, I wish to say, is one of the best boosters for your Liniment I ever saw."—J. W. Fuller, Danvers, Col.

"Just a line in praise of Sloan's Liniment. I have been ill nearly fourteen weeks with rheumatism, have been treated by doctors who did their best. I had not slept for the terrible pain for several nights, when my wife got me a small bottle of the Liniment and three applications gave me relief so that I could sleep."—Joseph Tansley, 616 Commerce Street, McKeesport, Pa.

## Home Treatment For Tuberculosis In Summer

**B**UILD a floor on a dry bit of ground. It is best to have it raised a few inches above the ground. Erect a tent over it, get a reclining chair and some simple furniture, and you are ready for a cheerful life at home while you fight that dread enemy, the Great White Plague.
